

SPECIALTY ENVIRONMENTAL CHEMICALS AND EQUIPMENT

# CARBONIL ES

## DESCRIPTION:

Carbonil ES combines a hydrocarbon encapsulator with a powerful H<sub>2</sub>S scavenger. This product is designed for applications where hydrocarbons and H<sub>2</sub>S are present at the same time. This product will work well in a tank where you want to lower LEL and H<sub>2</sub>S levels immediately. It may also be used in wet scrubber systems. Simply dilute with water and this product will do the rest.

## PRODUCT USES & APPLICATIONS

- Tank Cleaning
- LEL Control
- H<sub>2</sub>S Neutralization
- Spill Control
- Vapor Scrubber Systems
- Sludge Decontamination

## APPLICATION INSTRUCTIONS

Dilution Rate	Up to 20:1 with water
Set Time	30 minutes to 24 hours
Special Instructions	Apply as a foam to surface. Allow to permeate

**Special Instructions:** For scrubbing applications, make sure product has been treated with defoaming agent. Dilute 5:1 with water in scrubber systems.

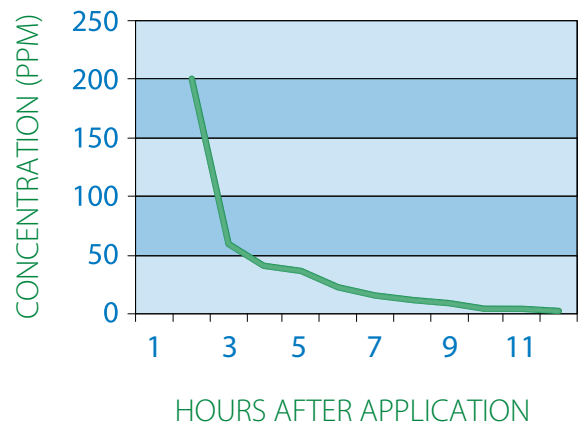

## HAZARDOUS INFORMATION

Specific Hazard	Eye and skin irritant
Flash Point (°F)	Above 220°
Biodegradability	Good
pH	10.8-11.3
Unusual Hazards	None

## PACKAGING INFORMATION

Available Quantities	5, 30, 55 and bulk quantities
Packaging Material	Poly
Other Information	Do not let product freeze.

## BENZENE PPM LEVELS

## H<sub>2</sub>S PPM LEVELS
